No. RGU/UGC-256/SG/2013(V-IV)

Dated: - 4<sup>th</sup> July, 2024

To,

Sr. Account Officer  
Ministry of Finance  
O/o Chief Controller of Accounts  
Internal Audit Wing, 4<sup>th</sup> Floor  
A .G. C. R, Building, Room No. 413,  
New Delhi, Govt. of India - 110002

Sub: - Submission of reply against the audit para in respect of Corpus Fund, Department of Economics, RGU.

Ref: - 1) Letter No. G-25014/MOF/CCA/IAWIR-37/22-23/221 dated 05/12/2023.

Sir,

Please find enclosed herewith the point wise audit para reply alongwith supporting documents against the Internal Audit Observations on the accounts of Corpus Fund, Dept. of Economics, Rajiv Gandhi University, Doimukh, Arunachal Pradesh for the period from 2012 -13 to 2021-22, for your records and ready reference.

Thanking you.

Enclo: As stated above.

Yours faithfully

(डॉ. डेविड पर्तिन Dr. David Pertin)

संयुक्त कुलसचिव (यू जी सी और परियोजना)

Joint Registrar (UGC & Project)

Dated: - 8<sup>th</sup> July, 2024

Memo. No. RGU/UGC-256/SG/2013(V-IV) /164

Copy to:-

1. Prof. Vanadana Upadhyay, Coordinator, CDS, Dept of Economics for information.
2. Prof. S.K. Nayak, Head, Dept of Economics for information.
3. Office copy.

संयुक्त कुलसचिव (यू जी सी और परियोजना)  
Joint Registrar (UGC & Project)

**Audit Para Reply of 8 audit Observation for the period from 2012-2022**

Para-1	Inadmissible payments done for availing helicopter services in TA	As Arunachal Pradesh is located in geographically remote location, at times it becomes very essential to avail the services of helicopter because of landslide, etc. Moreover, it is not a chartered helicopter, it is a passenger service. The fare is almost like AC 1 <sup>st</sup> class. RGU was reimbursing such service since beginning. The members suggested to request CCA to consider for deletion of the para. <b>( Enclosed Annexure - I)</b>
Para-2	Interest on the Corpus Fund initially earned not credited to the concerned account	It was reported that instantly on the receipts of Rs.10 crore from the Ministry of Finance a file was moved for opening of new account i.e. Corpus Fund Account, Dept. of Economics RGU which took 27 days. The members suggested that interest earned for 27 days be deposited shortly. <b>( Enclosed Annexure - II)</b>
Para-3	Delay in submitting Annual Reports and Statement of Accounts	Submission of UC in respect of financial year 2019-20 was delayed due to Covid Pandemic. We have noted corrective measures suggested by the audit team from Ministry of Finance, Internal Audit Wing, New Delhi which will be followed rigorously. It was informed that the Annual Report and Statement of Accounts were submitted. However, the members suggested to inform CCA with relevant supporting documents and to request CCA to consider for deletion of the para. <b>( Enclosed Annexure - III)</b>
Para-4	Management Committee meetings not convened on regular basis	As per the draft reply, it was informed that RGU do agree that the Management Committee meetings were not convened on regular basis, though attempts were made during 2019 and also in 2021 and 2022, but unfortunately the meetings could not be held, as RGU did not receive any reply from the Ministry. RGU assure that henceforth RGU would conduct the meetings regularly at least once in every year. The members suggested to conduct the Management Committee

**Audit Para Reply of 8 audit Observation for the period from 2012-2022**

		meeting of CDS timely as per CDS Guidelines. ( <b>Enclosed Annexure - IV</b> )
Para-5	Non-submission of performance-cum-achievement reports	It was informed that the performance-cum-achievement reports were submitted to the Committee members of CCA who visited RGU. The members suggested to request CCA to consider for deletion of the para. ( <b>Enclosed Annexure -V</b> )
Para-6	Delay in remittance of unspent amount of on account advance into government account	In regard to refund of unspent balances we have taken note of the suggestion made by the audit team and <b>will follow it strictly in future</b> . It was suggested by the committee to enquire if any interest earned out of the unspent balance and if so, the same may be deposited to their account.
Para-7	Procurement of Goods not made through GeM.	In regard procurement of Goods through GeM, RGU have taken note of the point raised by the audit team and will follow in future. The members suggested to improvise the draft reply by incorporating the problem related to procurement of Goods through GeM like geographical difficulty, area located in remote place, untimely delivery, etc. ( <b>Enclosed Annexure - VII</b> )
Para-8	Difference shown in interest/income earned as per UC and ledger balance of 2013-14 and balance of 2014-15.	It was informed that during the financial year 2013-14 the difference of one lakh only was inadvertently shown as Rs.31,16,000/- only instead of Rs.32,16,000/-. However, after cross verification of annual account of the said financial year, it has been verified that the interest on term deposit for the period 2013-14 is Rs.32,16,000/-. Hence the under casted amount of Rs.1.0 lakh is noted and to be corrected in the interest Term Deposit head in upcoming UC with a proper noting. In view of the above may consider to drop the observation please. The members suggested to incorporate in the UC. ( <b>Enclosed Annexure - VIII</b> )

## Centre for Development Studies

Department of Economics

Rajiv Gandhi University

Arunachal Pradesh-791112

### Annual Report 2018-19

#### About the Centre for Development Studies

The Centre for Development Studies (CDS) was set up as a research adjunct at the Department of Economics, Rajiv Gandhi University (RGU), Itanagar, Arunachal Pradesh, with a generous grant from the Ministry of Finance (Department of Economic Affairs), Government of India in 2013. The objectives of the Centre include the creation of high-quality research infrastructure for students and researchers and faculty members, in addition to sponsoring and coordinating research on various developmental issues having policy implications both at the regional and national level. Publishing working/policy papers on the research outcome of the Centre, monographs and edited volumes are among the key activities of the Centre.

**Prof. Amitava Mitra** was the founding Coordinator of CDS for a period of three years, followed by **Prof. S.K. Nayak** who was the coordinator of the Centre for the next three years. **Prof. Vandana Upadhyay** is the current coordinator of the CDS. In this period of eight years three advisory committee meetings were held. The first meeting was held on 2<sup>nd</sup> August 2013 followed by the second meeting which was held on 4<sup>th</sup> May 2017 and the third meeting on 25 February 2019. **Prof. G. K. Chadha**, former Vice Chancellor of Jawaharlal Nehru University, New Delhi and former economic advisory council member to the Prime Minister of India was the founder advisory committee member of CDS. The three current external members of the advisory committee are **Prof. Atul Sarma**, former Vice Chancellor, RGU & and Director Indian Statistical Institute and Member 13<sup>th</sup> Finance Commission, Govt. of India, **Prof. S. Mahendra Dev**, Vice Chancellor, Indira Gandhi Institute of Development Research, Mumbai and **Prof. Alakh N. Sharma**, Director, Institute for Human Development, New Delhi.

**The Objectives of the Centre for Development Studies has been set as follows:**

- ▶ To Promote and coordinate research on various developmental issues.
- ▶ To sponsor economist from all over India and abroad to the Department of Economics, Rajiv Gandhi University for delivering Lectures.
- ▶ To collaborate with national and international agencies and scholars in conducting studies and research on issues of critical importance to the region/country/between countries.
- ▶ To conduct regular seminars, conferences and workshops etc.
- ▶ To upgrade research infrastructure including communication and computing facilities

**Broad Thrust Areas of Research are as follows:**

- ▶ Human Development
- ▶ Valuation of Environmental Resources and other Environmental Related issues.
- ▶ Data Generation for savings for the State of Arunachal Pradesh.
- ▶ Livelihood Diversification in mountain economy of North East India.
- ▶ Study of Unemployment Problems in North East India.
- ▶ Economics of Education.
- ▶ Gender Issues
- ▶ Migration
- ▶ Industry and Trade.
- ▶ Economics of Agriculture and related Issues

### Projects undertaken and completed:

The Centre for Development Studies has been sponsoring and coordinating research on various developmental issues having policy implications. They are as follows:

- ▶ A Study of Agrarian Transition in Arunachal Pradesh (completed)
- ▶ Economic Impact of Tourism on Mountain Tourist Spot: A Study of Tawang District of Arunachal Pradesh (completed)
- ▶ Agricultural Labour Market and Farm Operations: A Study in Assam of North East India (completed)
- ▶ Time Utilization Pattern of Rural Women in Hills of Assam (on going)
- ▶ Impact of Cluster Formation on Financial Performance of the Unorganised Sector Enterprises: A Study in Assam (on going)

### 1. Seminar /Workshop

Sl. No.	Name of the workshop/ seminar	Coordinator	Date
1	One Week Workshop on NSSO Data Handling and Research with Big Data Set	Prof. Vandana Upadhyay (coordinator) Prasenjit Bujar Baruah (Joint Coordinator) Dil Bahadur Gurung (Joint Coordinator)	05/02/2019 to 09/02/2019

## 2. Research Project

Sl. No.	Principal Investigator	Title of the Project	Amount Sanctioned (₹in Lakhs)	Co-investigator (s)	Duration
1	Dr. Lijum Nochi	A Study of Agrarian Transition in Arunachal Pradesh	2.5	Nil	March 3, 2017 to present (report submitted on March 2020 )
2	Dr. Maila Lama	Economic Impact of Tourism on Mountain Tourist Spot: A Study of Tawang District of Arunachal Pradesh	2.5	Nil	March 3, 2017 to present (report submitted on June 10, 2020)
3	Dr. Prasenjit Bujar Baruah	Nature, Growth and Financing of Urban Unorganised Enterprises in Assam	2.12	Nil	April, 2017 to present (report submitted on 17-06-2019)
4	Dr. Dil Bahadur Gurung	Time Utilisation Pattern of Rural Women in Hill Districts of Assam	2.5	Nil	May 24, 2019 to present
5	Dr. Anup Kumar Das	Agricultural Labour Market and Farm Operation: A Study in Assam of North East India	2.5	Nil	March 3, 2017 to present (report submitted on December 20, 2019)

## 3. Other activity

- Conducted the 3<sup>rd</sup> Advisory meeting of CDS on 25<sup>th</sup> February, 2019

(Prof. Vandana Upadhyay)

Co-ordinator, CDS  
Department of Economics  
Rajiv Gandhi University

## 1. Publications

**Prof. S. K. Nayak, Dr. Lijum Nochi and Dr. Maila Lama: (2019) (Edited)**

**Hill Economies and Sustainable Development in India: Emerging Realities, Concept publishing Company Pvt. Ltd, New Delhi**

The book deals with issues and challenges of sustainable development in hill economies of India. It analyses the comparative advantages and challenges of the hill regions of India which comprises of 11 States.

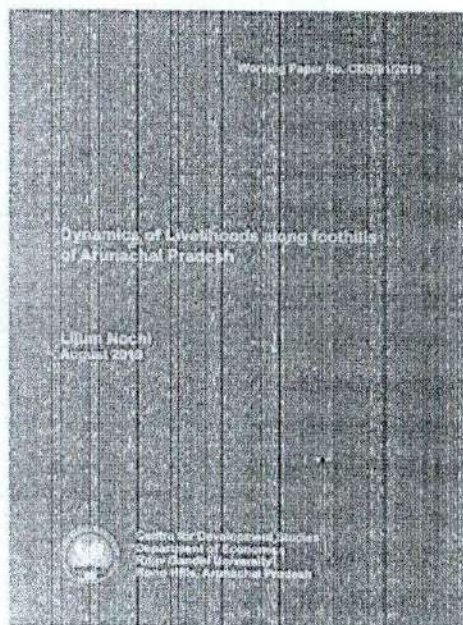

The papers in the book have attempted to address a wide range of issues such as livelihood diversification, food security, agricultural sustainability, poverty, inequality, urbanisation, migration, fiscal governance etc.

**Working Papers of the Centre for Development Studies**

**Dr. Lijum Nochi: "Dynamics of Livelihoods along foothills of Arunachal Pradesh".**

**Working Paper No. CDS/01/2019**

The Working paper focusses on the dynamics of Livelihoods along the foot hills of the State of Arunachal Pradesh. It deals with the various facets of livelihood activities and accesses. It ranges from occupational paradigm to land use pattern, from the household assets to farm practices, from dependence on natural resources to socio-institutional access. Based on the livelihood approach, the study has designed household livelihoods portfolio. It emphasis that the existing structures and processes do influence and shape the outcome of the livelihoods portfolio. The households in securing their livelihoods are faced with the problems of trading off and substitution of strategies and practices, giving rise to multiple least cost livelihood portfolios. In addition to farm activity, there are also set of allied farm activities in the portfolio of the households. The poor households are dependent upon nature-based livelihood activities such as fishing, hunting and trapping, in addition to gathering and extraction which constitutes an important part of their livelihoods portfolio. The study emphasises that the need of the hour is the right kind of interventions in the form of physical assets and technology at a lower cost for livelihood diversification.

**Dr. M. Lama: "Crop Diversification and Farm Income in the Hills of Northeast India".**

**Working Paper No. CDS/02/2019**

The working paper focuses on crop diversification and farm incomes in the hills of North East India. Crop diversification involves a shift of the resources particularly cultivated area from cereals and low value crops to high value crops like fruits and vegetables. The present study explores the status and extent of crop diversification in the hilly areas of the State of Arunachal Pradesh. The analysis of data reveals that productivity of different crops is lower in the State compared to the national average and that of other States. Hence emphasis should be on improving productivity on the one hand and on the other hand, focus should be on all income-generating activities like cash crops, floriculture, horticulture, fish culture and pig-rearing, agro-processing etc. to enhance the income of the farmers. The results showed that crop diversification had a positive and significant impact on farm income. Hence there is a need to introduce new technology, strengthen extension services, provide cheap credit, new inputs, marketing infrastructure and support prices. The cold storage facilities, irrigation and transportation should be improved for the development of the agriculture sector in the State.

**Dr. Anup K Das: "Rental Markets of Farm Capital Goods: A Study of its form, determinants of participation and impact on Agriculture".**

**Working Paper No. CDS/03/2019**

The working paper discusses the forms of rental markets, factors affecting the participation in such markets and its impact on agricultural production and productivity enhancing practices. Rental markets of agricultural machinery, especially which are expensive in nature, can play an important role in farm operation. It can facilitate farm mechanization even by small and marginal farmers for whom heavy machinery like tractor, power tiller etc. are not affordable. Rental markets of machinery can enhance farm mechanization further by increasing incentives to invest in such capital goods. In the presence of rental markets of farm machinery, owner farmers with insufficient land for fuller utilization of machine's capacity can reduce the underutilization by renting-out the machinery. This adds to the return of owner farmers from their investment in such machinery. Rental markets of agricultural machinery can also be effective in helping farmers to cope with the changing circumstances, such as difficulty of rearing the draught animals due to lack of grazing land, frequent flood, man power shortage etc. The rental markets of farm machinery can contribute significantly to farm operations.

Dr. Prasenjit B Baruah: "Unorganised Enterprises and Financial Inclusion: A Study of Assam".

Working Paper No. CDS/04/2019

The working paper focuses on the status and patterns of financing of the unorganised enterprises of Assam. It also analyses the impact of financial access on the performance of the urban unorganised enterprises in the State. It indicates that a large number of unorganised enterprises are engaged in both manufacturing and services sector in Assam and have also employed a large percentage of the workforce in the State. The enterprises in this sector have contributed significantly to the gross state domestic product. Large percentage of the unorganised enterprises reported that non-availability and costly credit were the main challenges faced by them and the own fund of the entrepreneurs was the main source of their investible resources and formed the maximum share in the total amount of working capital expenditure. To measure the depth of financial access an index was developed incorporating four aspects of financial access viz. saving, credit, insurance and payment through the financial institutions. Majority of the entrepreneurs have partial financial access and only a few have higher access to financial services. Thus, although financial coverage was not a major problem in the study area; depth of financial services was not found to be satisfactory.

The Centre for Development Studies has been sponsoring and coordinating research on various developmental issues having policy implications. They are as follows:

- ▶ A Study of Agrarian Transition in Arunachal Pradesh (completed)
- ▶ Economic Impact of Tourism on Mountain Tourist Spot: A Study of Tawang District of Arunachal Pradesh (completed)
- ▶ Agricultural Labour Market and Farm Operations: A Study in Assam of North East India (completed)
- ▶ Time Utilization Pattern of Rural Women in Hills of Assam (on going)
- ▶ Impact of Cluster Formation on Financial Performance of the Unorganised Sector Enterprises: A Study in Assam (on going)

**Seminars, Workshops and Training Programmes conducted (2020-2021): 08 Nos**

For the Capacity Building of Students, Researchers and Young Faculty Members from across the country, various workshops were organized by the Centre for Development Studies. They are as follows:

- ▶ International Webinar on "Impact of Covid-19 Pandemic on Global Economy" during 22-23 June, 2020

Most of our research is Field-based and Policy-oriented Collaborative research, based on primary data, interaction with scholars and policy makers through field work, which has enabled us to produce original research output. The research work in the Centre also promotes the regions

CONFIDENTIAL - SECURITY INFORMATION

1. The purpose of this document is to provide information regarding the security of the system. The information is classified as CONFIDENTIAL - SECURITY INFORMATION.

2. The information is to be used for the purpose of the system and is not to be disclosed to the public.

3. The information is to be kept confidential and is not to be used for any other purpose.

4. The information is to be kept confidential and is not to be used for any other purpose.

perspective. Output of the research is always disseminated among the stake holders. There is good scope for further development of the Centre, specially the research area. So far, research was mainly concentrated on the State of Arunachal Pradesh and neighbouring States of the region, but with increasing globalization, the research focus will be expanded to cover the new areas, especially those problems coming because of globalization and of new technology.

CDS Book and Working Papers Being Released by the Honorable Vice Chancellor of Rajiv Gandhi University on 17<sup>th</sup> December, 2020 at the Department of Economics, Rajiv Gandhi University.

## PUBLICATIONS OF THE CENTRE FOR DEVELOPMENT STUDIES in 2020-21

Prof. N C Roy: "Impact of Central Fund on the Economic Development of Arunachal Pradesh".

Working Paper No. CDS/05/2020

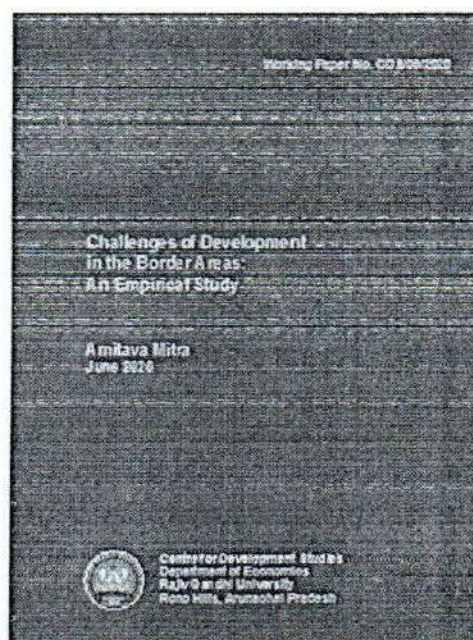

► The working paper primarily highlights the processes that has resulted in the improvement in the quality of life of the people in the state, as an outcome of the overall economic development witnessed in recent times. The study attempts to quantify the role of the inflow of funds from the Centre to the State and its impact on the development process. Arunachal economy has witnessed a trajectory of growth which is well marked by its noticeable gradient. Unlike other states of the country the development programme in the state was launched only after independence. Till 1962, the year of Indo-China war, a gradualist approach towards development was undertaken. The war, drastically altered the vision of development towards the borderlands and the Government of India reoriented its policy to accelerate the growth of the

Arunachal economy. This has resulted in the steady flow of funds from the Central Government to the State. The study is an attempt to quantify the effects of central funds upon the growth of income and other development indicators of the State.

Prof. Amitava Mitra: "Challenges of Development in the Border Areas: An Empirical Study".

Working Paper No. CDS/06/2020

► The working paper has explored the wide ranging inter-district disparities in the state of Arunachal Pradesh, in terms of availability of infrastructural facilities that are crucial for improving the economic condition of people in the state. The districts of the northern and eastern international border areas, with high mountains are less well serviced than the districts in the foothills of Arunachal Pradesh. Against this background, the study examines the developmental challenges, the socio-economic condition of the population at large, as well as the livelihood linkages in the international border areas of Arunachal Pradesh. All the border districts of Arunachal Pradesh and two border blocks (bordering with China) have been covered in the study. The identified challenges in the surveyed blocks include lack of physical connectivity, lack of educational facilities, lack of health facilities, erratic supply of electricity, almost no potable water

supply, sanitation issues, frequent landslides, isolation and remoteness.

The first part of the paper is devoted to a general survey of the history of the City of London from the early Middle Ages to the present day. It is then divided into two main sections: the first dealing with the history of the City of London as a whole, and the second dealing with the history of the City of London as a part of the larger London area.

The second part of the paper is devoted to a detailed study of the history of the City of London as a part of the larger London area. It is then divided into two main sections: the first dealing with the history of the City of London as a whole, and the second dealing with the history of the City of London as a part of the larger London area.

The third part of the paper is devoted to a detailed study of the history of the City of London as a part of the larger London area. It is then divided into two main sections: the first dealing with the history of the City of London as a whole, and the second dealing with the history of the City of London as a part of the larger London area.

The fourth part of the paper is devoted to a detailed study of the history of the City of London as a part of the larger London area. It is then divided into two main sections: the first dealing with the history of the City of London as a whole, and the second dealing with the history of the City of London as a part of the larger London area.

The fifth part of the paper is devoted to a detailed study of the history of the City of London as a part of the larger London area. It is then divided into two main sections: the first dealing with the history of the City of London as a whole, and the second dealing with the history of the City of London as a part of the larger London area.

The sixth part of the paper is devoted to a detailed study of the history of the City of London as a part of the larger London area. It is then divided into two main sections: the first dealing with the history of the City of London as a whole, and the second dealing with the history of the City of London as a part of the larger London area.

The seventh part of the paper is devoted to a detailed study of the history of the City of London as a part of the larger London area. It is then divided into two main sections: the first dealing with the history of the City of London as a whole, and the second dealing with the history of the City of London as a part of the larger London area.

The eighth part of the paper is devoted to a detailed study of the history of the City of London as a part of the larger London area. It is then divided into two main sections: the first dealing with the history of the City of London as a whole, and the second dealing with the history of the City of London as a part of the larger London area.

The ninth part of the paper is devoted to a detailed study of the history of the City of London as a part of the larger London area. It is then divided into two main sections: the first dealing with the history of the City of London as a whole, and the second dealing with the history of the City of London as a part of the larger London area.

Prof. N.C. Roy, Prof. S. K. Nayak and Dr. D B Gurung: "Identification of the Potential Exportables of Arunachal Pradesh".

Working Paper No. CDS/07/2020

The working paper is a study on the export potentials of the state of Arunachal Pradesh. It emphasises on the fact that the resource endowments in the State are adequate for the expansion of outputs of a good range of commodities. There is a variety of horticultural products and indigenous orchids which can be produced commercially by overcoming the various challenges which the State faces in terms of infrastructural bottlenecks. However, the authors argue, that for this economic vision to be a reality, it is imperative that the producers get remunerative prices for their outputs.

## Annual Report 2021-22

### About the Centre for Development Studies

The Centre for Development Studies (CDS) was set up as a research adjunct at the Department of Economics, Rajiv Gandhi University (RGU), Itanagar, Arunachal Pradesh, with a generous grant from the Ministry of Finance (Department of Economic Affairs), Government of India in 2013. The objectives of the Centre include the creation of high-quality research infrastructure for students and researchers and faculty members, in addition to sponsoring and coordinating research on various developmental issues having policy implications both at the regional and national level. Publishing working/policy papers on the research outcome of the Centre, monographs and edited volumes are among the key activities of the Centre.

**Prof. Amitava Mitra** was the founding Coordinator of CDS for a period of three years, followed by **Prof. S.K. Nayak** who was the coordinator of the Centre for the next three years. **Prof. Vandana Upadhyay** is the current coordinator of the CDS. In this period of eight years three advisory committee meetings were held. The first meeting was held on 2<sup>nd</sup> August 2013 followed by the second meeting which was held on 4<sup>th</sup> May 2017 and the third meeting on 25 February 2019. **Prof. G. K. Chadha**, former Vice Chancellor of Jawaharlal Nehru University, New Delhi and former economic advisory council member to the Prime Minister of India was the founder advisory committee member of CDS. The three current external members of the advisory committee are **Prof. Atul Sarma**, former Vice Chancellor, RGU & and Director Indian Statistical Institute and Member 13<sup>th</sup> Finance Commission, Govt. of India, **Prof. S. Mahendra Dev**, Vice Chancellor, Indira Gandhi Institute of Development Research, Mumbai and **Prof. Alakh N. Sharma**, Director, Institute for Human Development, New Delhi.

### The Objectives of the Centre for Development Studies has been set as follows:

- ▶ To Promote and coordinate research on various developmental issues.
- ▶ To sponsor economist from all over India and abroad to the Department of Economics, Rajiv Gandhi University for delivering Lectures.
- ▶ To collaborate with national and international agencies and scholars in conducting studies and research on issues of critical importance to the region/country/between countries.
- ▶ To conduct regular seminars, conferences and workshops etc.
- ▶ To upgrade research infrastructure including communication and computing facilities

**Broad Thrust Areas of Research are as follows:**

- ▶ Human Development
- ▶ Valuation of Environmental Resources and other Environmental Related issues.
- ▶ Data Generation for savings for the State of Arunachal Pradesh.
- ▶ Livelihood Diversification in mountain economy of North East India.
- ▶ Study of Unemployment Problems in North East India.
- ▶ Economics of Education.
- ▶ Gender Issues
- ▶ Migration
- ▶ Industry and Trade.
- ▶ Economics of Agriculture and related Issues

**Projects undertaken and completed (2021 to 2022):**

The Centre for Development Studies has been sponsoring and coordinating research on various developmental issues having policy implications. They are as follows:

- ▶ A Study of Agrarian Transition in Arunachal Pradesh (completed)
- ▶ Economic Impact of Tourism on Mountain Tourist Spot: A Study of Tawang District of Arunachal Pradesh (completed)
- ▶ Agricultural Labour Market and Farm Operations: A Study in Assam of North East India (completed)
- ▶ Time Utilization Pattern of Rural Women in Hills of Assam (on going)
- ▶ Impact of Cluster Formation on Financial Performance of the Unorganised Sector Enterprises: A Study in Assam (on going)

**Seminars, Lectures, Workshops and Training Programmes conducted (2021-2022):**

For the Capacity Building of Students, Researchers and Young Faculty Members from across the country, lectures and workshops was organized by the Centre for Development Studies during 2021-2022. They are as follows:

**SEMINARS / WORKSHOPS / CONFERENCES / SHORT-TERM COURSES / FDP / OUTREACH PROGRAMMES etc. ORGANISED BY THE CENTRE FOR DEVELOPMENT STUDIES**

Most of our research is Field-based and Policy-oriented Collaborative research, based on primary data, interaction with scholars and policy makers through field work, which has enabled us to produce original research output. The research work in the Centre also promotes the regions perspective. **Output of the research is always disseminated among the stake holders.** There is good scope for further development of the Centre, specially the research area. So far, research was mainly concentrated on the State of Arunachal Pradesh and neighbouring States of the region, but with increasing globalization, the research focus will be expanded to cover the new areas, especially those problems coming because of globalization and of new technology.

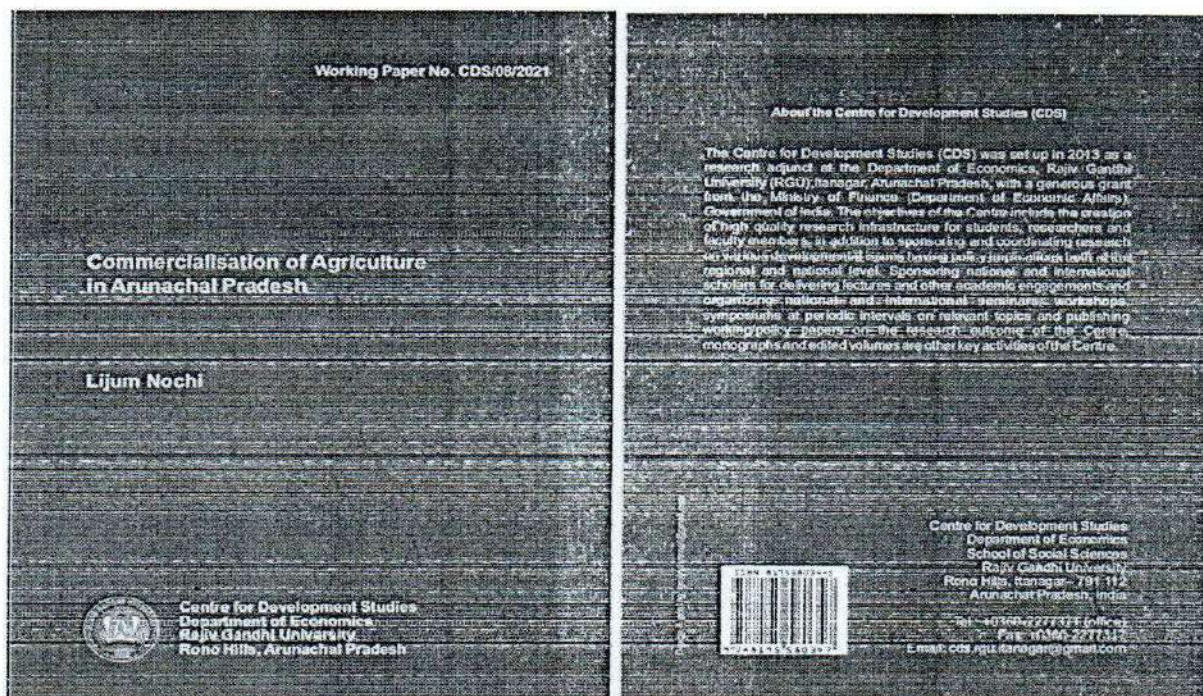

Working Papers of the Centre for Development Studies (2021-2022)

Dr. Lijum Nochi: "Commercialisation of Agriculture in Arunachal Pradesh".

Working Paper No. CDS/08/2021

The Working paper focusses on the dynamics of commercialisation of agriculture in the State of Arunachal Pradesh. As the economy of the State of Arunachal Pradesh is mainly based on agriculture and its allied sectors, the challenge in Arunachal Pradesh is to transform agriculture from the means of subsistence to the vehicle of generating surplus – this means the rate of profitability in agriculture must be higher than that of other sectors. This also implies that the level of not just social productivity but also financial profitability must be higher than that of the other sectors of the economy. This it is believed would result in the flow of funds to agriculture and thus the dependence of the sector upon the government assistance would drastically decrease. The very purpose of extending services to the agricultural sector is to make agriculture a fairly lucrative productive sector that would automatically attract human capital to it.

This working paper, with its focus on commercialization of agriculture in the State of Arunachal Pradesh, will be of interest to policy planners, academics, researchers and students interested in the field of agriculture and development studies.

Date: 31<sup>st</sup> March, 2022

Vandana Upadhyay  
Professor

Head, Department of Economics &  
Coordinator, Centre for Development Studies  
Rajiv Gandhi University

**Annual Report 2022-23**

**About the Centre for Development Studies**

The Centre for Development-Studies (CDS) was set up as a research adjunct at the Department of Economics, Rajiv Gandhi University (RGU), Itanagar, Arunachal Pradesh, with a generous grant from the Ministry of Finance (Department of Economic Affairs), Government of India in 2013. The objectives of the Centre include the creation of high-quality research infrastructure for students and researchers and faculty members, in addition to sponsoring and coordinating research on various developmental issues having policy implications both at the regional and national level. Publishing working/policy papers on the research outcome of the Centre, monographs and edited volumes are among the key activities of the Centre.

**Prof. Amitava Mitra** was the founding Coordinator of CDS for a period of three years, followed by **Prof. S.K. Nayak** who was the coordinator of the Centre for the next three years. **Prof. Vandana Upadhyay** is the current coordinator of the CDS. In this period of eight years three advisory committee meetings were held. The first meeting was held on 2<sup>nd</sup> August 2013 followed by the second meeting which was held on 4<sup>th</sup> May 2017 and the third meeting on 25 February 2019. **Prof. G. K. Chadha**, former Vice Chancellor of Jawaharlal Nehru University, New Delhi and former economic advisory council member to the Prime Minister of India was the founder advisory committee member of CDS. The three current external members of the advisory committee are **Prof. Atul Sarma**, former Vice Chancellor, RGU & and Director Indian Statistical Institute and Member 13<sup>th</sup> Finance Commission, Govt. of India, **Prof. S. Mahendra Dev**, Vice Chancellor, Indira Gandhi Institute of Development Research, Mumbai and **Prof. Alakh N. Sharma**, Director, Institute for Human Development, New Delhi.

**The Objectives of the Centre for Development Studies has been set as follows:**

- To Promote and coordinate research on various developmental issues.
- To sponsor economist from all over India and abroad to the Department of Economics, Rajiv Gandhi University for delivering Lectures.
- To collaborate with national and international agencies and scholars in conducting studies and research on issues of critical importance to the region/country/between countries.
- To conduct regular seminars, conferences and workshops etc.
- To upgrade research infrastructure including communication and computing facilities

**Broad Thrust Areas of Research are as follows:**

- ▶ Human Development
- ▶ Valuation of Environmental Resources and other Environmental Related issues.
- ▶ Data Generation for savings for the State of Arunachal Pradesh.
- ▶ Livelihood Diversification in mountain economy of North East India.
- ▶ Study of Unemployment Problems in North East India.
- ▶ Economics of Education.
- ▶ Gender Issues
- ▶ Migration
- ▶ Industry and Trade.
- ▶ Economics of Agriculture and related Issues

**Projects undertaken and completed (2022 to 2023):**

The Centre for Development Studies has been sponsoring and coordinating research on various developmental issues having policy implications. They are as follows:

- ▶ A Study of Agrarian Transition in Arunachal Pradesh (completed)
- ▶ Economic Impact of Tourism on Mountain Tourist Spot: A Study of Tawang District of Arunachal Pradesh (completed)
- ▶ Agricultural Labour Market and Farm Operations: A Study in Assam of North East India (completed)
- ▶ Time Utilization Pattern of Rural Women in Hills of Assam (on going)
- ▶ Impact of Cluster Formation on Financial Performance of the Unorganised Sector Enterprises: A Study in Assam (on going)

**Seminars, Lectures, Workshops and Training Programmes conducted (2021-2022):**

For the Capacity Building of Students, Researchers and Young Faculty Members from across the country, lectures and workshops was organized by the Centre for Development Studies during 2022-2023. They are as follows:

**SEMINARS / WORKSHOPS / CONFERENCES / SHORT-TERM COURSES / FDP / OUTREACH PROGRAMMES etc. ORGANISED BY THE CENTRE FOR DEVELOPMENT STUDIES**

CDS Working Papers Being Released by the Honorable Vice Chancellor of Rajiv Gandhi University on 31<sup>st</sup> October, 2022 at the Department of Economics, Rajiv Gandhi University, Rono Hills, Itanagar.

Most of our research is Field-based and Policy-oriented Collaborative research, based on primary data, interaction with scholars and policy makers through field work, which has enabled us to produce original research output. The research work in the Centre also promotes the regions perspective. **Output of the research is always disseminated among the stake holders.** There is good scope for further development of the Centre, specially the research area. So far, research was mainly concentrated on the State of Arunachal Pradesh and neighbouring States of the region, but with increasing globalization, the research focus will be expanded to cover the new areas, especially those problems coming because of globalization and of new technology.

Working Papers of the Centre for Development Studies (2022-2023)

Ashi Lama: "Estimating the Economic Impact of Tourism on a Mountain Tourist Spot: A Study of Tawang, Arunachal Pradesh".

Working Paper No. CDS/09/2022

ISBN: 978-81-955803-0-9

The working paper attempts to understand and analyse the growth of tourist arrivals in the State of Arunachal Pradesh and makes an attempt to estimate the impact of tourism, both on the economy and the environment. Using both primary and secondary data the paper highlights the fact that how tourism is moving towards being one of the fastest growing sector in the State in terms of employment and income generation. The study also points out the challenges that the sector faces and highlights how unregulated tourism development would have an adverse impact on the overall environment of the region and advocates for the promotion of sustainable tourism in the State.

This working paper, focusing on certain unaddressed concerns of tourism in Arunachal Pradesh, will be of immense interest and use to policy planners, academics and other concerned actors – dealing with the tourism sector.

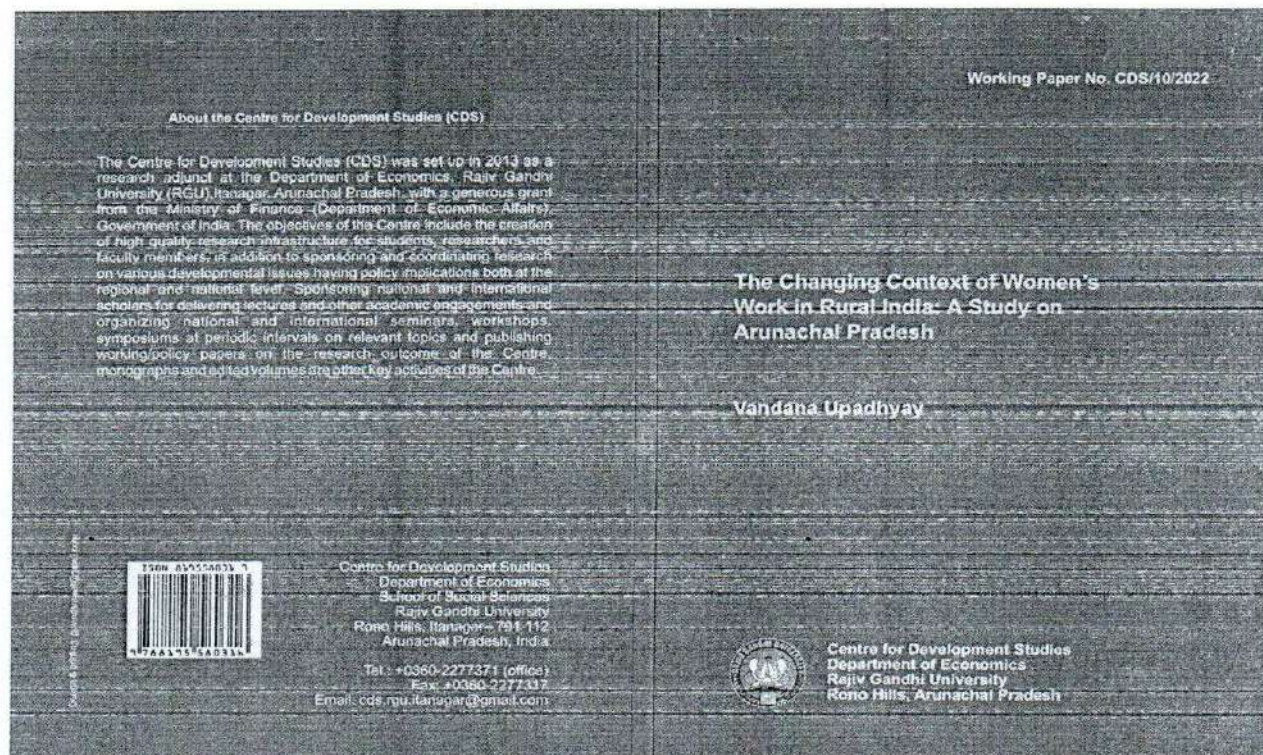

Vandana Upadhyay: "The Changing Context of Women's Work in Rural India: A Study on Arunachal Pradesh".

Working Paper No. CDS/10/2022

ISBN: 978-81-955803-1-6

The working paper attempts to understand household work, workforce participation, division of labour and changing perception of women in rural Arunachal Pradesh. Using both qualitative and quantitative approach, the average time spent on household work and agricultural activities by both men and women and the gendered division of labour has been examined through time use survey. The paper highlights that economic transformation of the State itself has generated gendered processes of exclusion and impoverishment. Although gender relations in Arunachal Pradesh is generally described as egalitarian, particularly in comparison with many other states of India, such a general portrayal, the paper has attempted to argue, not only hides the wide variations that exists among the north eastern states, but also does not pay adequate attention to the continuing and emerging disparities in various dimensions of well-being, division of labour and empowerment.

This working paper, focusing on certain unaddressed concerns of women's 'unpaid' work in India, will be of immense interest and use to policy planners, academics and other concerned actors – dealing with issues of gender, work and employment.

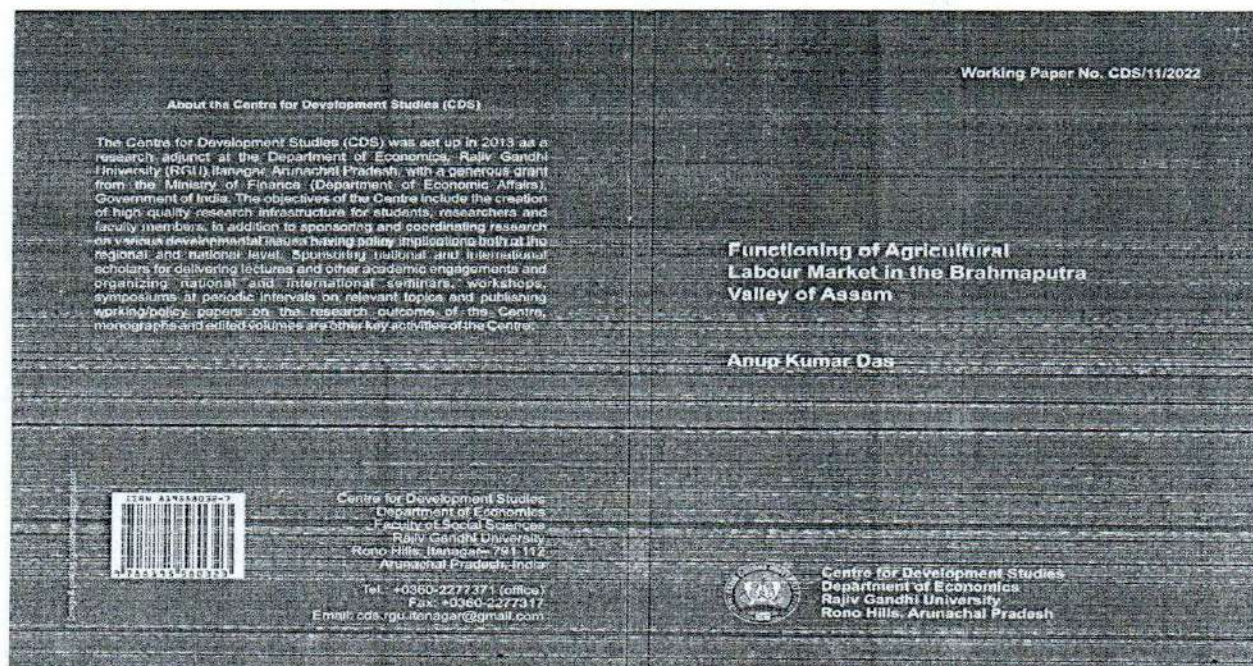

Anup Kumar Das "Functioning of Agricultural Labour Market in the Brahmaputra Valley of Assam".

Working Paper No. CDS/11/2022

ISBN: 978-81-955803-2-3

The working paper attempts to understand and analyse the functioning of Agricultural Labour market in the Brahmaputra Valley of Assam. Using both primary and secondary data the paper highlights the fact that how labour, which is a vital farm input is not distributed in an equitable manner in the country. It also emphasis on the importance of the agriculture sector in employment generation, especially in an agrarian state like Assam. The study also points out the challenges that the Agricultural Labour market faces and highlights the fact that the labour market is mostly localized, segmented and fragmented in the State of Assam.

This working paper, focusing on certain unaddressed concerns of Agricultural Labour Market in Assam, will be of immense interest and use to policy planners, academics and other concerned actors – dealing with the agricultural sector.

Sub: - Request for approval and scheduling of Management Committee Meeting – Reg.

Sir,

I hope this message finds you well. I am writing to seek your approval for convening a meeting of the Management Committee to discuss (Agenda items enclosed) pertaining to the Centre for Development Studies fund. Given the importance of the issues at hand, your kind presence and guidance would be highly solicited.

Kindly spare your valuable time to attend this meeting. We would be grateful if you pick up a suitable date and time between 25<sup>th</sup> -30<sup>th</sup> July, 2024. We wish to ensure that the meeting is convenient for all key stakeholders, especially yourself.

Thank you for your consideration and look forward to your kind response.

Thanking you

Yours faithfully

## 1. Publications

Prof. S. K. Nayak, Dr. Lijum Nochi and Dr. Maila Lama: (2019) (Edited) Hill Economies and Sustainable Development in India: Emerging Realities, Concept publishing Company Pvt. Ltd, New Delhi

The book deals with issues and challenges of sustainable development in hill economies of India. It analyses the comparative advantages and challenges of the hill regions of India which comprises of 11 States.

The papers in the book have attempted to address a wide range of issues such as livelihood diversification, food security, agricultural sustainability, poverty, inequality, urbanisation, migration, fiscal governance etc.

### Working Papers of the Centre for Development Studies

Dr. Lijum Nochi: "Dynamics of Livelihoods along foothills of Arunachal Pradesh".  
Working Paper No. CDS/01/2019

The Working paper focusses on the dynamics of Livelihoods along the foot hills of the State of Arunachal Pradesh. It deals with the various facets of livelihood activities and accesses. It ranges from occupational paradigm to land use pattern, from the household assets to farm practices, from dependence on natural resources to socio-institutional access. Based on the livelihood approach, the study has designed household livelihoods portfolio. It emphasis that the existing structures and processes do influence and shape the outcome of the livelihoods portfolio. The households in securing their livelihoods are faced with the problems of trading off and substitution of strategies and practices, giving rise to multiple least cost livelihood portfolios. In addition to farm activity, there are also set of allied farm activities in the portfolio of the households. The poor households are dependent upon nature-based livelihood activities such as fishing, hunting and trapping, in addition to

gathering and extraction which constitutes an important part of their livelihoods portfolio. The study emphasises that the need of the hour is the right kind of interventions in the form of physical assets and technology at a lower cost for livelihood diversification.

**Dr. M. Lama: "Crop Diversification and Farm Income in the Hills of Northeast India".**  
Working Paper No. CDS/02/2019

The working paper focuses on crop diversification and farm incomes in the hills of North East India. Crop diversification involves a shift of the resources particularly cultivated area from cereals and low value crops to high value crops like fruits and vegetables. The present study explores the status and extent of crop diversification in the hilly areas of the State of Arunachal Pradesh. The analysis of data reveals that productivity of different crops is lower in the State compared to the national average and that of other States. Hence emphasis should be on improving productivity on the one hand and on the other hand, focus should be on all income-generating activities like cash crops, floriculture, horticulture, fish culture and pig-rearing, agro-processing etc. to enhance the income of the farmers. The results showed that crop diversification had a positive and significant impact on farm income. Hence there is a need to introduce new technology, strengthen extension services, provide cheap credit, new inputs, marketing infrastructure and support prices. The cold storage facilities, irrigation and transportation should be improved for the development of the agriculture sector in the State.

**Dr. Anup K Das: "Rental Markets of Farm Capital Goods: A Study of its form, determinants of participation and impact on Agriculture".**  
Working Paper No. CDS/03/2019

The working paper discusses the forms of rental markets, factors affecting the participation in such markets and its impact on agricultural production and productivity enhancing practices. Rental markets of agricultural machinery, especially which are expensive in nature, can play an important role in farm operation. It can facilitate farm mechanization even by small and marginal farmers for whom heavy machinery like tractor, power tiller etc. are not affordable. Rental markets of machinery can enhance farm mechanization further by increasing incentives to invest in such capital goods. In the presence of rental markets of farm machinery, owner farmers with insufficient land for fuller utilization of machine's capacity can reduce the underutilization by renting-out the machinery. This adds to the return of owner farmers from their investment in such machinery. Rental markets of agricultural machinery can also be effective in helping farmers to cope with the changing circumstances, such as difficulty of rearing the draught animals due to lack of grazing land, frequent flood, man power shortage etc. The rental markets of farm machinery can contribute significantly to farm operations.

*[The text in this section is extremely faint and illegible. It appears to be a multi-paragraph document, possibly a letter or a report, with several lines of text visible across the page.]*

The working paper focuses on the status and patterns of financing of the unorganised enterprises of Assam. It also analyses the impact of financial access on the performance of the urban unorganised enterprises in the State. It indicates that a large number of unorganised enterprises are engaged in both manufacturing and services sector in Assam and have also employed a large percentage of the workforce in the State. The enterprises in this sector have contributed significantly to the gross state domestic product. Large percentage of the unorganised enterprises reported that non availability and costly credit were the main challenges faced by them and the own fund of the entrepreneurs was the main source of their investible resources and formed the maximum share in the total amount of working capital expenditure. To measure the depth of financial access an index was developed incorporating four aspects of financial access viz. saving, credit, insurance and payment through the financial

institutions. Majority of the entrepreneurs have partial financial access and only a few have higher access to financial services. Thus, although financial coverage was not a major problem in the study area; depth of financial services was not found to be satisfactory.

Most of our research is Field-based and Policy-oriented Collaborative research, based on primary data, interaction with scholars and policy makers through field work, which has enabled us to produce original research output. The research work in the Centre also promotes the regions perspective. **Output of the research is always disseminated among the stake holders.** There is good scope for further development of the Centre, specially the research area. So far, research was mainly concentrated on the State of Arunachal Pradesh and neighbouring States of the region, but with increasing globalization, the research focus will be expanded to cover the new areas, especially those problems coming because of globalization and of new technology.

## **Brief Information about the Centre for Development Studies**

The Centre for Development Studies (CDS) was set up in 2013 as a Research Centre adjunct Department of Economics, Rajiv Gandhi University (RGU), Itanagar, Arunachal Pradesh with a generous grant from the Ministry of Finance (Department of Economic Affairs), Government of India. The objectives of the Centre include the creation of high-quality research infrastructure for students, researchers and faculty members, in addition to sponsoring and coordinating research on various developmental issues having policy implications both at the regional and national level. The Centre also aims to publishing working/policy papers based on the research outcomes of the Centre, monographs and edited volumes are among the key activities of the Centre. It aims to upgrade research infrastructure including communication and computing facilities. The Centre conducts research in high priority and thrust areas such as issues related to agriculture, livelihood diversification, unemployment problems, gender issues and migration, industry and trade, human development, environmental valuation, tourism, education and health. The Centre also conducts workshops and training programmes to build and enhance the capacity of the students, research scholars and faculty members. The participants to workshop and training programmes are drawn from different Universities and Colleges of the country. The Centre also organizes seminars and conferences to provide opportunities to the scholars from different parts of India and other countries to present their research papers. The selected papers presented in seminars are published in the form of edited books and conference proceedings.

## Performance and Achievements 2020-2021

The performance and achievements of the Centre for Development Studies (CDS) adjunct Department of Economics, Rajiv Gandhi University during the financial year 2020-2021 are presented as follows:

### A. Seminar/Webinar

Sl. No.	Title of Webinar	Organised by	Date	National/International	Number of participants
1	Impact of Covid-19 Pandemic on Global Economy	CDS, Dept. of Economics	22-23 June, 2020	International Webinar	168

### B. Research Publications/Working Papers

Sl. No.	Title of the publication	Name of the author	Publisher & Working Paper No.	Year	Type
1	Impact of Central Fund on the Economic Development of Arunachal Pradesh	Prof. N. C. Roy	CDS, CDS/05/2020	June, 2020	Working paper
2	Challenges of Development in the Border Areas: An Empirical Study	Prof. Amitava Mitra	CDS, CDS/06/2020	June, 2020	Working paper
3	Identification of the Potential Exportables of Arunachal Pradesh	Prof. N.C. Roy, Prof. S. K. Nayak and Dr. D. B. Gurung	CDS, CDS/07/2020	June, 2020	Working paper

### C. Research Projects

Sl. No.	Title of the Project	Principal Investigator	Amount Sanctioned (₹in Lakhs)	Duration
1	Time Utilisation Pattern of Rural Women in Hill Districts of Assam	Dr. Dil B. Gurung	2.5	May 24, 2019 to present (ongoing)
2	Impact of Cluster Formation on Financial Performance of the Unorganised Sector Enterprises: A Study in Assam	Dr. Prasenjit Bujar Baruah	2.0	Ongoing

Most of our research is Field-based and Policy-oriented Collaborative research, based on primary data, interaction with scholars and policy makers through field work, which has enabled us to produce original research output. The research work in the Centre also promotes the regions perspective. **Output of the research is always disseminated among the stake holders.** There is good scope for further development of the Centre, specially the research area. So far, research was mainly concentrated on the State of Arunachal Pradesh and neighbouring States of the region, but with increasing globalization, the research focus will be expanded to cover the new areas, especially those problems coming because of globalization and of new technology.

Prof. N C Roy: "Impact of Central Fund on the Economic Development of Arunachal Pradesh".

Working Paper No. CDS/05/2020

► The working paper primarily highlights the processes that has resulted in the improvement in the quality of life of the people in the state, as an outcome of the overall economic development witnessed in recent times. The study attempts to quantify the role of the inflow of funds from the Centre to the State and its impact on the development process. Arunachal economy has witnessed a trajectory of growth which is well marked by its noticeable gradient. Unlike other states of the country the development programme in the state was launched only after independence. Till 1962, the year of Indo-China war, a gradualist approach towards development was undertaken. The war, drastically altered the vision of development towards the borderlands and the Government of India reoriented its policy to accelerate the growth of the Arunachal economy. This has resulted in the steady flow of funds from the Central Government to the State.

The study is an attempt to quantify the effects of central funds upon the growth of income and other development indicators of the State.

Prof. Amitava Mitra: "Challenges of Development in the Border Areas: An Empirical Study". Working Paper No. CDS/06/2020

► The working paper has explored the wide ranging inter-district disparities in the state of Arunachal Pradesh, in terms of availability of infrastructural facilities that are crucial for improving the economic condition of people in the state. The districts of the northern and eastern international border areas, with high mountains are less well serviced than the districts in the foothills of Arunachal Pradesh. Against this background, the study examines the developmental challenges, the socio-economic condition of the population at large, as well as the livelihood linkages in the international border areas of Arunachal Pradesh. All the border districts of Arunachal Pradesh and two border blocks (bordering with China) have been covered in the study. The identified challenges in the surveyed blocks include lack of physical connectivity, lack of educational facilities, lack of health facilities, erratic supply of electricity, almost no potable water supply, sanitation issues, frequent landslides, isolation and remoteness.

Prof. N.C. Roy, Prof. S. K. Nayak and Dr. D B Gurung: "Identification of the Potential Exportables of Arunachal Pradesh".

Working Paper No. CDS/07/2020

The working paper is a study on the export potentials of the state of Arunachal Pradesh. It emphasises on the fact that the resource endowments in the State are adequate for the expansion of outputs of a good range of commodities. There is a variety of horticultural products and indigenous orchids which can be produced commercially by overcoming the various challenges which the State faces in terms of infrastructural bottlenecks. However, the authors argue, that for this economic vision to be a reality, it is imperative that the producers get remunerative prices for their outputs.

### Working Papers of the Centre for Development Studies (2021-2022)

Dr. Lijum Nochi: "Commercialisation of Agriculture in Arunachal Pradesh".  
Working Paper No. CDS/08/2021 ISBN: 978-81-955803-4-7

The Working paper focusses on the dynamics of commercialisation of agriculture in the State of Arunachal Pradesh. As the economy of the State of Arunachal Pradesh is mainly based on agriculture and its allied sectors, the challenge in Arunachal Pradesh is to transform agriculture from the means of subsistence to the vehicle of generating surplus

– this means the rate of profitability in agriculture must be higher than that of other sectors. This also implies that the level of not just social productivity but also financial profitability must be higher than that of the other sectors of the economy. This it is believed would result in the flow of funds to agriculture and thus the dependence of the sector upon the government assistance would drastically decrease. The very purpose of extending services to the agricultural sector is to make agriculture a fairly lucrative productive sector that would automatically attract human capital to it.

This working paper, with its focus on commercialization of agriculture in the State of Arunachal Pradesh, will be of interest to policy planners, academics, researchers and students interested in the field of agriculture and development studies.

Working Papers of the Centre for Development Studies (2022-2023)

Ashi Lama: "Estimating the Economic Impact of Tourism on a Mountain Tourist Spot: A Study of Tawang, Arunachal Pradesh".

Working Paper No. CDS/09/2022

ISBN: 978-81-955803-0-9

The working paper attempts to understand and analyse the growth of tourist arrivals in the State of Arunachal Pradesh and makes an attempt to estimate the impact of tourism, both on the economy and the environment. Using both primary and secondary data the paper highlights the fact that how tourism is moving towards being one of the fastest growing sector in the State in terms of employment and income generation. The study also points out the challenges that the sector faces and highlights how unregulated tourism development would have an adverse impact on the overall environment of the region and advocates for the promotion of sustainable tourism in the State.

This working paper, focusing on certain unaddressed concerns of tourism in Arunachal Pradesh, will be of immense interest and use to policy planners, academics and other concerned actors – dealing with the tourism sector.

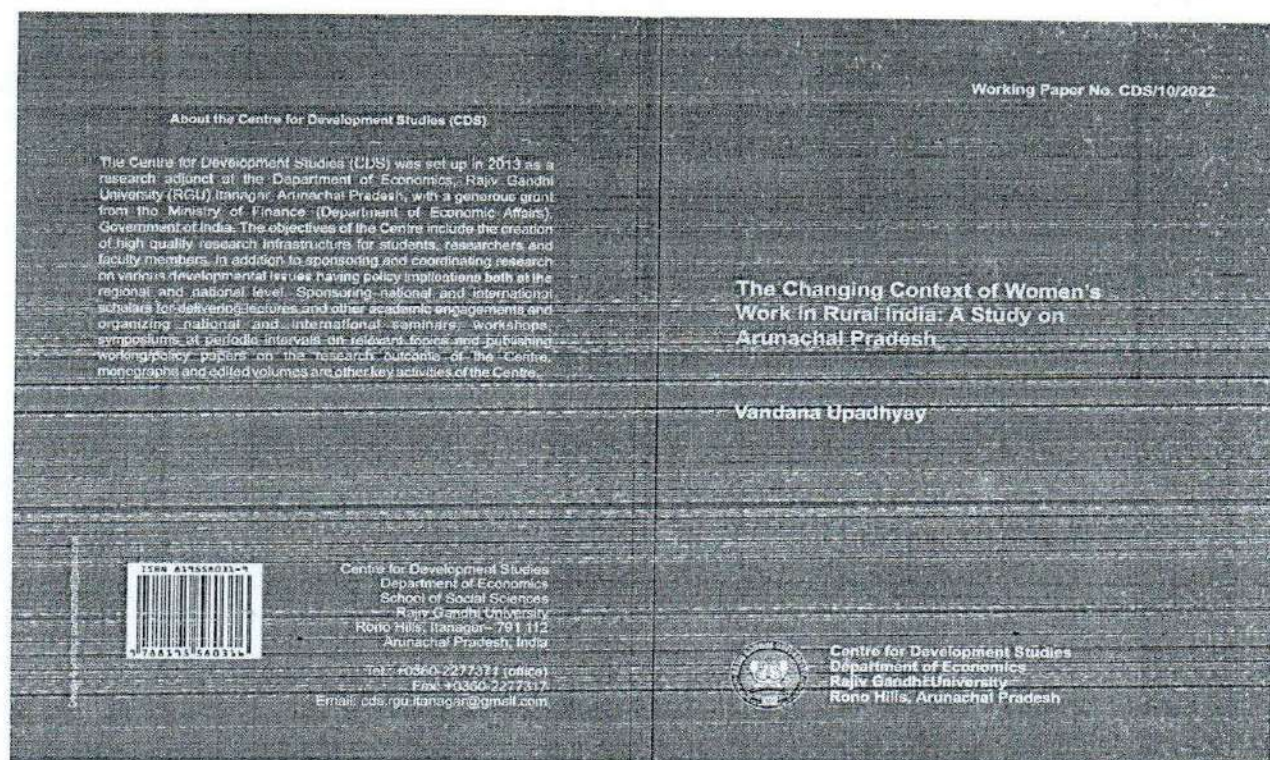

Vandana Upadhyay: "The Changing Context of Women's Work in Rural India: A Study on Arunachal Pradesh".

Working Paper No. CDS/10/2022

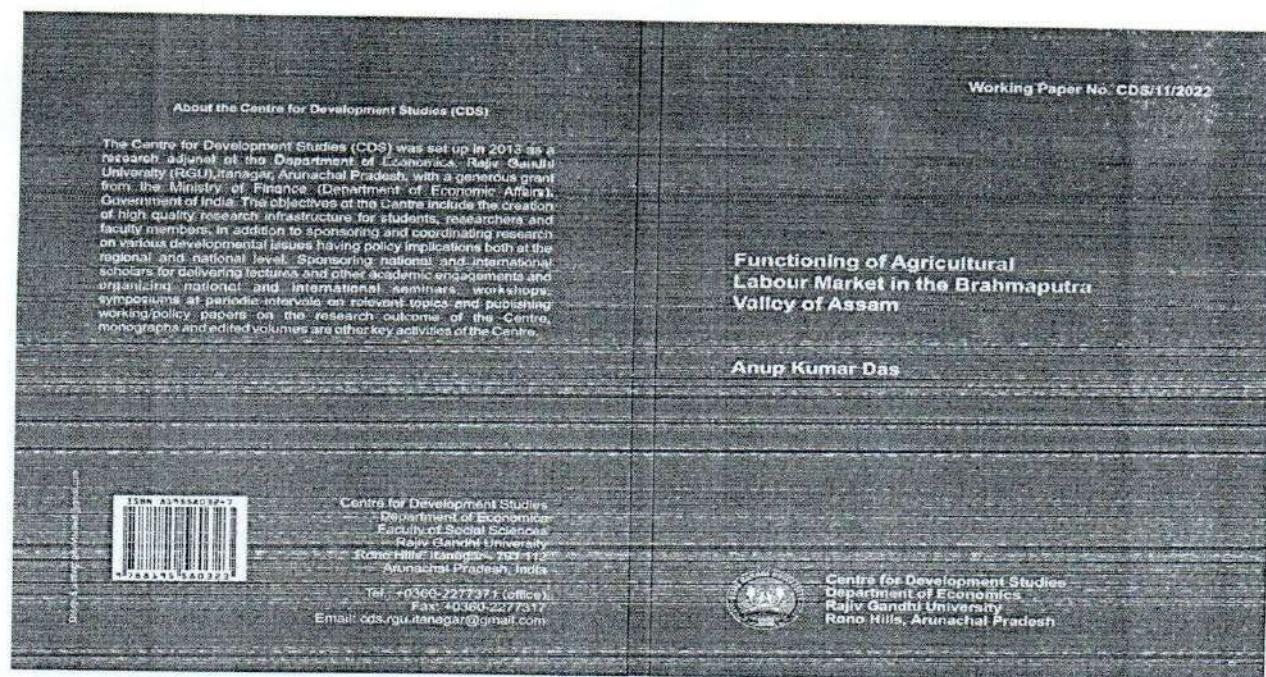

ISBN: 978-81-955803-1-6

The working paper attempts to understand household work, workforce participation, division of labour and changing perception of women in rural Arunachal Pradesh. Using both qualitative and quantitative approach, the average time spent on household work and agricultural activities by both men and women and the gendered division of labour has been examined through time use survey. The paper highlights that economic transformation of the State itself has generated gendered processes of exclusion and impoverishment. Although gender relations in Arunachal Pradesh is generally described as egalitarian, particularly in comparison with many other states of India, such a general portrayal, the paper has attempted to argue, not only hides the wide variations that exists among the north eastern states, but also does not pay adequate attention to the continuing and emerging disparities in various dimensions of well-being, division of labour and empowerment.

This working paper, focusing on certain unaddressed concerns of women's 'unpaid' work in India, will be of immense interest and use to policy planners, academics and other concerned actors – dealing with issues of gender, work and employment.

The working paper attempts to understand and analyse the functioning of Agricultural Labour market in the Brahmaputra Valley of Assam. Using both primary and secondary data the paper highlights the fact that how labour, which is a vital farm input is not distributed in an equitable manner in the country. It also emphasis on the importance of the agriculture sector in employment generation, especially in an agrarian state like Assam. The study also points out the challenges that the Agricultural Labour market faces and highlights the fact that the labour market is mostly localized, segmented and fragmented in the State of Assam.

This working paper, focusing on certain unaddressed concerns of Agricultural Labour Market in Assam, will be of immense interest and use to policy planners, academics and other concerned actors – dealing with the agricultural sector.
